

MALINKÉ PRODUCTIONS · SEND US YOUR PICTURES AND FILES

Send what you have. Don't make anything new.

Links are best. Pictures are fine. Nothing is too messy.

KEEP THIS PAGE ·
MALINKEPRODUCTIONS.COM/SEND-
YOUR-STUFF

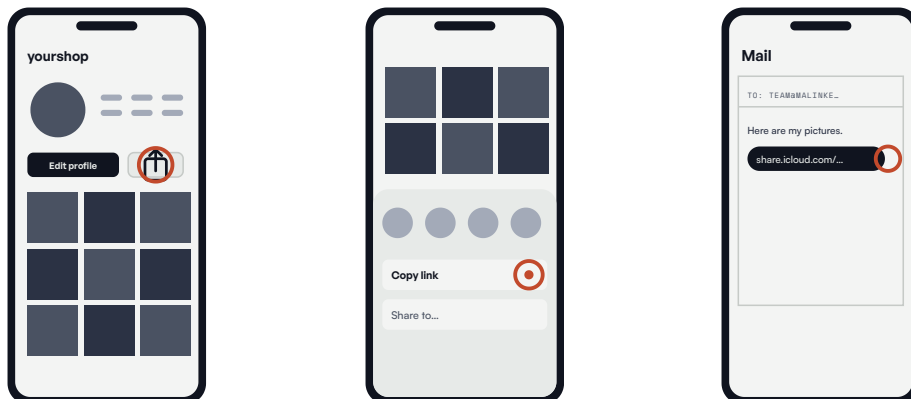

ON PAPER, FOLLOW THE STEPS
FOR YOUR PHONE OR YOUR
COMPUTER.

THE EASIEST WAY

Send links. We take it from there.

Your Instagram, your website, your booking page, your Google Business page. We pull the pictures and the words from them.

1 On your Instagram profile,
tap the share button.

2 Tap Copy link.

3 Paste it into your reply to
our email, or into the form at
malinkeproductions.com.

THEN

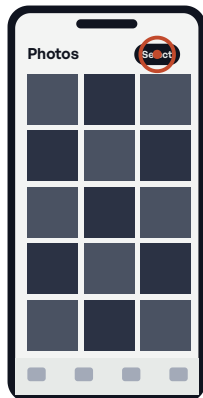

We can see everything on that page, at full size. A website works the same way: copy what's in the address bar.

PICTURES ON YOUR PHONE

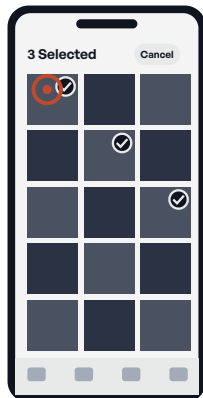

Ten or fewer? Just text or email them.

More than ten, or videos? Send one link to all of them instead. It takes a minute and keeps them full size.

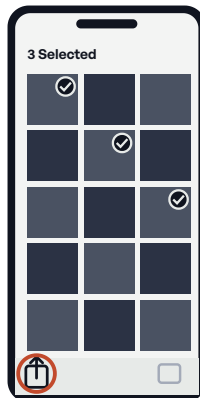

IPHONE

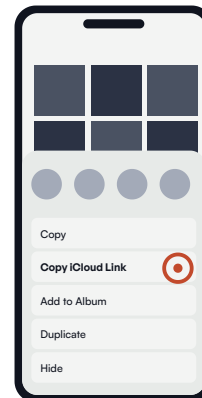

1 Open Photos and tap Select.

2 Tap each picture you want to send.

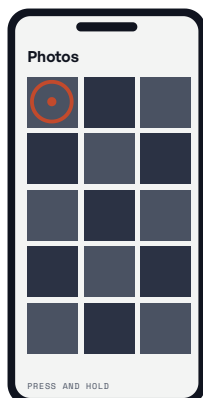

3 Tap the Share button, the square with the arrow.

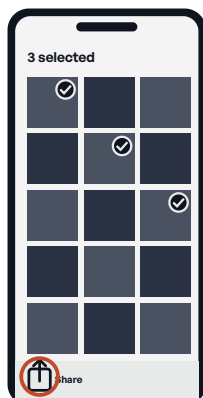

4 Tap Copy iCloud Link, then paste the link into your message to us.

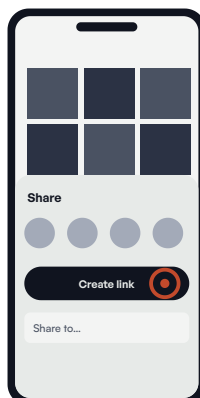

ANDROID

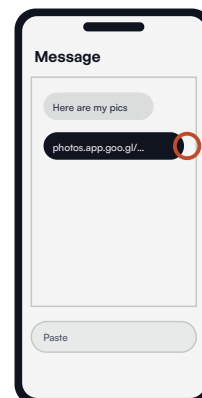

1 Open Google Photos. Press and hold one picture, then tap the others.

2 Tap Share.

3 Tap Create link, then Copy.

4 Paste the link into your message to us.

THEN

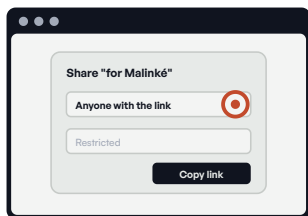

We open the link and see all of them. You keep the originals.

ON A COMPUTER

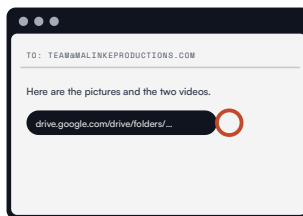

Put them in one folder and share the folder.

1 Make a folder in Google Drive, Dropbox or iCloud Drive and drag the pictures and videos into it. The name doesn't matter.

2 Right-click the folder, choose Share, set it to Anyone with the link, and copy the link.

3 Paste the link into your message to us.

THEN

We see the whole folder. Videos stay full quality, which email can't do.

YOUR WORDS

Say them. Don't write them up.

- Your tagline, your prices, the line you say to every customer.
 - A voice memo is fine. So is a text.
 - If there's a word you always use, tell us. If there's a word you never want to see, tell us that too.
-

IF IT DIDN'T WORK

Two things that usually fix it.

- If we write back that the link asks us to request access, open the share settings and change it to Anyone with the link.
 - If a picture won't send, take a screenshot of it and send that. We'll ask for the original if we need it.
-

What happens to what you send

We make things from it, and nothing goes out until you've seen it and said yes. We don't post your pictures anywhere ourselves.

RESOURCES

Help that isn't us.

Free, and from the people who make the phones, or who teach this for a living.
